Joint Statement of the II Brazilian Meeting on Research Integrity, Science and Publication Ethics (II BRISPE) - May 28 - June 1, 2012

Brazil is an emerging scientific power and rapidly becoming a regional and international research leader. Leadership requires more than high-quality scientific publications and qualified researchers. Although these are the traditionally recognized hallmarks of excellence, they have little value if not accompanied by high standards for integrity in research [1,2]. Evidence for this is more than apparent in the grand ethical challenges faced in global discussions about emerging technologies, climate change, exploitation of natural resources, but also science and society, data sharing, data protection, copyright and intellectual property rights [3,4].

In this global scenario, the following issues should be considered:

i. Accountability in science and public trust in research results have increasingly been recognized as part of these grand ethical challenges, particularly as dialogues between science and society have become stronger in contemporary science.

ii. Accountability and public trust in science have been identified as crucial aspects of governance in science, technology and innovation (S,T&I), and fostering accountability is closely related to promoting research integrity, as noted in international documents such as The Singapore Statement on Research Integrity (2010) [5] and others.

iii. Research integrity, excellence and creativity are major assets for competitiveness in S,T&I.

iv. The perception that a meaningful contribution to science is inseparable from accountability in research has led to significant changes in criteria for judgment of the quality and soundness of research projects and articles.

v. Quality and soundness of research are interconnected features that depend on reliability of data and their faithful representation in the research record.

vi. Quality and soundness of research may be affected by undisclosed conflicts of interests, which can distort the research record and mislead the research community.

vii. In Brazil, growing incentives for collaborative projects that are conducted in an increasingly competitive international environment may lead to more successful results if institutions, academic journals, scientific societies and funding agencies establish strategic measures to promote and sustain accountability and public trust in science.

viii. The State of São Paulo Foundation for Research Support (FAPESP) and the Brazilian National Council on Scientific and Technological Development (CNPq) have paved the way for establishing a culture of accountability in Brazilian science.

ix. Brazilian science is expected to broaden its commitment to promoting and sustaining a culture of research integrity in its national and international research endeavors.

As an attempt to address these issues and contribute to fostering research integrity initiatives in Brazil, the II Brazilian Meeting on Research Integrity, Science and Publication Ethics (II BRISPE) recommends that all institutions should

...
1. include, promote and publicize RI/RCR guidelines and materials in their websites - for example, The Singapore Statement on Research Integrity, 2010 [5]; FAPESP’s Code for Good Research Practices, 2011 [6], and CNPq’s Directives for Research Integrity, 2011 [7]; and Cooperation between Research Institutions and Journals on Research Integrity Cases: Guidance from the Committee on Publication Ethics – COPE, 2012 [8];

2. include research integrity guidelines in their strategic approach to research excellence;

3. raise awareness that plagiarism in all classwork is academic violation, be it in elementary school, high school or university. Provide educational materials showing that plagiarism in academic monographs, dissertations and theses is also an illegal practice in Brazil.

4. provide educational activities on RI/RCR among students and faculty to stimulate institutional discussion about local concerns;

5. encourage students and faculty to engage in national and international meetings and/or courses on RI/RCR;

6. stimulate awareness-raising activities about the role of publication ethics and authorship in national and international collaborative works;

7. provide opportunities for students and faculty to develop international language skills, ethical writing practices, and the ability to communicate accurately and responsibly the results of science, technology and innovation to their peers and to society;

8. develop initiatives to promote accountability and public trust in science among undergraduate and graduate students.

9. publicize this document among Brazilian students, researchers and faculty.

The II BRISPE, http://www.iibrispe.coppe.ufrj.br, was organized by the Medical Biochemistry Institute (IBqM/UFRJ) & Alberto Luiz Coimbra Institute for Graduate Studies and Research in Engineering (COPPE/UFRJ); Oswaldo Cruz Foundation (FIOCRUZ); The University of São Paulo (USP), and The Pontifical Catholic University of Rio Grande do Sul (PUCRS), in collaboration with other Brazilian universities. Among collaborators/sponsors are The Federal University of São Paulo (UNIFESP), The Brazilian National Council for Scientific and Technological Development (CNPq), The São Paulo State Foundation for Research Support (FAPESP), The Brazilian Academy of Sciences (ABC), The Brazilian Society for the Advancement of Science (SBPC), The Brazilian Forum of Vice-Provosts for Graduate Studies and Research (FOPROP), The Federal Council of the Brazilian Order of Lawyers (CF OAB), OAB-Ceará, The US Office of Research Integrity (ORI), The National Institutes of Health (NIH), and All European Academies (ALLEA), among others. The recommendations in this joint statement were made by the members of the Working Group of the II BRISPE and were discussed before, during and after a session on international RI/RCR policies held on May 29, 2012, at COPPE/UFRJ. The working group includes invited speakers and members of the Organizing and Advisory Committees, as follows:
Co-Chairs of the Working Group of II BRISPE:

Sonia Vasconcelos, PhD, Science Education Program at the Medical Biochemistry Institute, Federal University of Rio de Janeiro (IBqM/UFRJ); Martha Sorenson, PhD, Biochemistry and Molecular Biology Program at IBqM/UFRJ, and Edson Watanabe, PhD, Electrical Engineering Program at Alberto Luiz Coimbra Institute for Graduate Studies and Engineering (COPPE); Director of Academic Affairs, COPPE/UFRJ.

National Collaborators:

Adalberto Vieyra, PhD, Carlos Chagas Filho Biophysics Institute (IBCCF/UFRJ); Former Area Coordinator - Biological Sciences II - (2005-2011) of the Coordination for the Advancement of Higher Education Personnel (CAPES). Member of the Organizing Committee of I and II BRISPE.

André Pinto, PhD, Brazilian Center for Physics Research (CBPF); Former Vice-President for Materials of the Brazilian Society for Microscopy and Microanalysis (SBMM) (2009-2011). Member of the Organizing Committee of I and II BRISPE.

Antonio Nóbrega, PhD, Physiology and Pharmacology Department at Fluminense Federal University (UFF); Vice-Provost for Graduate Studies, Research and Innovation at UFF. Member of the Advisory Committee of II BRISPE.

Carla Bonan, PhD, School of Biosciences at the Pontifical Catholic University of Rio Grande do Sul (PUCRS); Head of Research of the Vice-President Office for Research and Graduate Studies at PUCRS. Member of the Organizing Committee of II BRISPE.

Carlos H.B. Cruz, PhD, The Gleb Wataghin Physics Institute at the State University of Campinas (UNICAMP); Scientific Director of The State of São Paulo Research Foundation (FAPESP). Member of the Advisory Committee of II BRISPE.

Cássia Turci, PhD, Chemistry Institute (IQ/UFRJ); Director of IQ/UFRJ. Member of the Advisory Committee of II BRISPE.

Charles Pessanha, PhD, Program of Public Policies, Strategy and Development at the Economy Institute (PPED/UFRJ); Former President of the Brazilian Association of Scientific Editors (ABEC). Member of the Organizing Committee of II BRISPE.

Claude Pirmez, PhD, Interdisciplinary Medical Research Laboratory, Oswaldo Cruz Foundation (FIOCRUZ); Vice-President for Research and Reference Laboratories at FIOCRUZ. Member of the Organizing Committee of II BRISPE.

Dalton Ramos, PhD, Social Odontology Department at the University of São Paulo (USP). Member of the Brazilian National Commission for Research Ethics (CONEP). Member of the Organizing Committee of II BRISPE.

Debora Foguel, PhD, IBqM/UFRJ. Vice-Provost for Graduate Studies and Research (PR2) at UFRJ. Former President of the Brazilian Society for Biochemistry and Molecular Biology (SBBq) (2008-2010). Member of the Advisory Committee of II BRISPE.

Francisco Prosdocimi, PhD, IBqM/UFRJ. Member of the Organizing Committee of II BRISPE.

Hatisaburo Masuda, PhD, IBqM/UFRJ; Coordinator of the Science Education Program at IBqM/UFRJ. Member of the Organizing Committee of I and II BRISPE.

Jacqueline Leta, PhD, IBqM/UFRJ; Head of the Laboratory of Metrics and Information in Science and Technology at PEGeD/IBqM/UFRJ. Member of the Organizing Committee of II BRISPE.

José Carlos Pinto, PhD, COPPE/UFRJ; Associate Director of Technology and Innovation at COPPE/UFRJ. Member of the Organizing Committee of I and II BRISPE.

José Roberto Lapa, PhD, Clementino Fraga Filho University Hospital (HUCFF/UFRJ); Coordinator of the Medical Clinics Graduate Program at UFRJ. Member of the the Organizing Committee of II BRISPE.

Luiz Henrique L. Santos, PhD, Faculty of Philosophy, Languages and Humanities at the University of São Paulo (FFLCH-USP). Area Coordinator – Humanities – of FAPESP.

Maria D. Vargas, PhD, Chemistry Institute (IQ/UFF); Area Coordinator - Chemistry - of Carlos Chagas Filho Foundation for Research Support in the State of Rio de Janeiro (FAPERJ). Member of the Advisory Committee of II BRISPE.

Mário AC Silva Neto, PhD, IBqM/UFRJ; Director of IBqM/UFRJ. Member of the Organizing Committee of II BRISPE.
Marisa Palácios, PhD, Institute for Collective Health, IESC/UFRJ; Coordinator of the Institutional Review Board of IESC (CEP - IESC/UFRJ); Member of the Presidency of the Brazilian Society for Bioethics (SBB). Member of the Organizing Committee of I and II BRISPE.

Marisa Russo Lecointre, PhD, Faculty of Philosophy, Languages and Humanities of the Federal University of São Paulo (EFLCH/UNIFESP). Member of the Organizing Committee of II BRISPE.

Paulo Sérgio Beirão, PhD, Biological Sciences Institute (ICB/UFMG); Director of Agricultural, Biological and Health Sciences at the Brazilian Council for Scientific and Technological Development (CNPq); Chair of the Commission for Research Integrity of CNPq. Member of the Advisory of II BRISPE.

Ricardo Bacelar, MA, Faculty of Law at Fortaleza University (UNIFOR); Inspector-General for the Brazilian Order of Lawyers, Ceará (OAB-CE). Member of the Advisory Committee of II BRISPE.

Rosemary Shinkai, PhD, School of Dentistry of PUCRS; Coordinator of the Division of Projects of the Vice-President Office for Research and Graduate Studies at PUCRS. Member of COPE. Member of the Organizing Committee of II BRISPE.

Stevens Rehen, PhD, Biological Sciences Institute (ICB/UFRJ); Coordinator for the National Laboratory of Embryonic Stem Cell (LANCE). Member of the Advisory Committee of II BRISPE.

International Collaborators:

Ana Marusic, PhD, The University of Split, Croatia; Former President of the Council of Science Editors (CSE) (2007-2008) and of the World Association of Medical Editors (WAME) (2002-2003). Member of the Advisory Committee of II BRISPE.

Debra Mathews, PhD, Johns Hopkins University; Assistant Director for Science Programs at the Johns Hopkins Berman Institute of Bioethics, US.

Donald McCabe, PhD, Rutgers Business School-Newark and New Brunswick, Rutgers, The State University of New Jersey, US. Member of the Advisory Committee of II BRISPE.

Elizabeth Wager, PhD, Former Chair of the Committee on Publication Ethics – COPE (2009-2012), UK. Member of the Advisory Committee of II BRISPE.

Harold Garner, PhD, Virginia Bioinformatics Institute; Director of the Medical Informatics and Systems Division, Virginia Polytechnic Institute and State University, US.

Ivan Oransky, MD, Executive Editor of Reuters Health; Co-Creator of Retraction Watch; US. Member of the Advisory Committee of II BRISPE.

Jane Robbins, PhD, McGuire Center for Entrepreneurship, The University of Arizona, US.

Linda Nielsen, PhD, University of Copenhagen; Co-Chair of the European Group on Ethics in Science and New Technologies and of the Intergovernmental Bioethics Committee at UNESCO, Denmark. Member of the Advisory Committee of II BRISPE.

Miguel Roig, PhD, Department of Psychology at St. John's University, US. Member of the Advisory Committee of II BRISPE.

Nicholas Steneck, PhD, University of Michigan; Director of the Research Ethics and Integrity Program of the Michigan Institute for Clinical & Health Research (MICHR); Co-Chair of the First and Second World Conferences on Research Integrity, 2007 and 2010, US. Member of the Advisory Committee of II BRISPE.

Rüdiger Klein, PhD. Executive Director of All European Academies (ALLEA), European Federation of National Academies of Sciences and Humanities, The Netherlands.

Sabine Kleinert, PhD, Executive Editor of The Lancet; Former Co-Chair of COPE (2009-2012) and of the Third World Conference on Research Integrity, 2013, UK. Member of the Advisory Committee of II BRISPE.

Susan Zimmerman, BCL, LLB, Executive Director of Secretariat on Responsible Conduct of Research, Canada. Member of the Advisory Committee of II BRISPE.
